

Particular People!

Doctors by their very training
are particular people . . . in
the realm of clothes, whether
it be the doctor or patient,
cleanliness and freshness are
essential to one's well-being

To make certain that every stain
and every crease is removed and
much of the original charm of
your clothes restored, send them
for Elegant Dry Cleaning to

The Cleaners of Ulster
and note the distinctive difference

of Elegance

THE NEW ZEPHYR

Tomorrow's design today

The entirely new Zephyr sets the fashion for tomorrow's fine cars. Long, low, and wide, it is a dream come true. Radiator and tail styling add distinctive Zephyr elegance to the beautiful, flowing lines. Wide, more expansive comfort for 6 people invites you inside to the soft resilient seats. The new instrument panel is a masterpiece. Powerful brakes increase road safety. Brilliant developments give the new 2,553 c.c. 6 cyl. 'oversquare' engine a polished performance — smooth, and thrifty over fuel and engine wear.

an all-round defence against

in all its phases

The relief of pain is rightly the patient's just insistence. Effective alleviation may be obtained in many pain producing conditions which increase seasonally. Rheumatism, lumbago, arthritis, coryzal and influenzal aches are but some of the common ailments

which call for a rapid form of therapy. Hypon Tablets fulfil the requirements of a safe analgesic without any untoward side effects being experienced. Caffeine and phenolphthalein present in Hypon Tablets ensures a preparation which is the best in its category.

FORMULA: Acid Acetylsalicyl B.P. 40.22% Phenacet. B.P. 48.00% Caffein B.P. 2.00% Codein. Phosph. B.P. 0.99% Phenolphthal. B.P. 1.04% Excip. 7.75% (each tablet 8 grains)

Gypsona

TRADE MARK

has stood the test of time

Soaks more readily than hand-rolled bandages.

Sets firmly in four to five minutes.

Stronger yet less brittle than ordinary plaster.

Casts have porcelain-like surface.

Casts are porous.

Trimmed edges do not crumble and give a neat appearance.

Casts may be bivalved, or cut open

and sprung apart without loss of strength.

Exact number of bandages for a particular cast can be determined beforehand.

Special interlocked woven cloth permits easy moulding.

High plaster content—90% of plaster by weight.

Will keep for a very long time without deterioration when stored in a dry place.

The absence of loose powder and the non-fray edges of the specially-woven leno cloth base of Gypsona bandages provides a distinct advantage over hospital-made bandages.

In performance, the superiority of Gypsona is even more marked. The high plaster content is fixed to the fabric by a special process, and there is a negligible loss of plaster when the bandage is soaked. A surprisingly small amount of material will produce a cast which is light, but of great strength.

Gypsona is by far the most economical plaster for the modern functional treatment of fractures.

WELWYN GARDEN CITY · HERTS.

THE CHILDREN'S DOCTOR

THE CHILDREN'S DOCTOR must choose his drugs with care, and therefore it must be of considerable help to him to know that many authorities have described 'Sulphamezathine' as the best sulphonamide for use when treating children.

Combining high potency with low toxicity, and possessing a wide range of action, 'Sulphamezathine' can be used wherever sulphonamide therapy is indicated. The drug is well tolerated, and a palatable suspension has been specially prepared for children. 'Sulphamezathine' is undoubtedly the drug of choice for the children's doctor.

Benger Laboratories

POLYBACTRIN

antibiotic powder spray

INVALUABLE IN ALL BRANCHES OF SURGERY

Polybactrin provides a unique and economical means of applying a combination of Zinc Bacitracin, Neomycin Sulphate and Polymixin 'B' Sulphate—the three antibiotics of choice for topical use. The antibiotics are presented in an ultra-fine powder form dispersed under pressure with a propellant, and unlike other means of powder insufflation in common use, there is no risk of contamination of the antibiotics by airborne pathogens obtaining entry into the unit by suction.

A FRACTIONAL RELEASE GIVES COMPLETE DISPERSAL OF POWDER OVER THE WOUND

1. The *Polybactrin* unit offers a new technique for topical application of antibiotic therapy, enabling an efficient, economical and dry coverage of the wound area to be made.
2. The extensive range of bactericidal activity afforded by the triad of bacitracin, neomycin and polymixin gives an extremely wide coverage of wound pathogens without the risk of inducing resistant strains of organisms.
3. *Ps. pyocyaneus*, particularly present in burns, is completely inhibited by polymixin, considerably reducing the healing time.
4. *Polybactrin* is not readily absorbed and there is no risk of systemic toxicity occurring.
5. The propellant gas is non-toxic and does not support combustion.
6. There are no contra-indications to the use of *Polybactrin*. Systemic therapy may be given concurrently if necessary.

FORMULA: Each pack contains: Neomycin Sulphate 750 mg. Polymixin 'B' Sulphate 150,000 units. Zinc Bacitracin 37,500 units. Propellant 83.5 g. Net contents 85 g.

THE BUSY DOCTOR NEEDS

Whitla's *New* Dictionary of Medical Treatment

Quick and easy access to the latest therapeutic methods. That is what the doctor wants to-day and that is what WHITLA'S DICTIONARY provides. Edited by R. S. ALLISON, V.R.D., M.D., F.R.C.P., D.P.M., and T. H. CROZIER, M.D., B.SC., F.R.C.P., Physicians to the Royal Victoria Hospital, Belfast, with a team of 26 contributors, it gives detailed treatments and dosages for all conditions commonly encountered and for many of those that are less usually seen. The text is arranged alphabetically with an index for easy cross-reference and, in every respect, this concise, accurate and up-to-date book is a working tool that every medical practitioner will do well to acquire.

SEE HOW IT SPREADS !

ONE DROP
of Ef-Cortelan Skin Lotion . . .

. . . COVERS THE WHOLE OF THE BACK OF THE HAND

These photographs, taken under ultra-violet light, give visible proof of the superb spreading power, and economy, of Ef-Cortelan Skin Lotion. To aid photography a fluorescent dye was added—usually the thin film of lotion is invisible after application.

Why the spreading power of Ef-Cortelan Skin Lotion counts so much

- It penetrates *deeply*. Therefore the $\frac{1}{2}$ % lotion is as effective as a 1% ointment.
- It spreads *smoothly* without a hint of friction.
- It spreads *evenly*—a little goes a long way.
